

What Went Well	What Could've Gone Better	Action Items
meetings productivity and focus	Hard coding led to a big blocker	Create more ui styling rules
We kept the scrum board organized and updated	While the scrum board was up to date, we would sometimes forget to updat the burn up chart when tasks were completed	Refactor database file
Completed all but one task	Cordinate better about upcoming team absences	Look into why some input buttons don't utilize the enter key, for better UX
Communication between team members made integration easier
