## Action To Stop Doing

- Going into too much detail during stand up
- Not doing code review when submitting code to repo
- Git pull requests

## Actions To Start Doing

- Working on main branch
- Split work into different files
- Start using discord for impromptu meetings

## Actions To Continue Doing

- Good communication with team members, utilizing discord to ask and answer questions in order to integrate each other's components.

## Work completed/not completed

- Completed all user stories and tasks
